3 🖺

Defendants-appellants Todd New man and Anthony Chiasson appeal From Judgments of Ponviction Intered on May 12013, and May 12, 2013, Ind Ma

The Government alleged that all other to fan alysts at various and the description of the

4 🖺

Global Investors, I.P. (Level Global"), With Willfully Participating in Indisinsider Irading Scheme By Irading In Securities Based on the inside Information inicitly obtained By Iriding Iroup of Inalysts. In Inappeal, Newman Indicated the Indian I

We ligree that the jury instruction was enroneous because we conclude that, in order to sustain a conviction for insider thating, the covernment must prove beyond a casonable to ubt that the tippee is knew that in insider disclosed confidential information and that the did so in exchange for a personal benefit. Moreover, we hold that the evidence was an sufficient to sustain a guilty werdict against. New man and chiasson for two or asons. First, the covernment's evidence of any personal benefit beceived by the alleged ansiders was sinsufficient tho establish the stipper shiability from the hich defendants' purported to pee hability would derive. Second, even assuming that the stant evidence of fered and the issue of personal benefit was sufficient, which we should derive was in ot, when so Government presented how which we should desire was in ot, when so Government presented how widence that New man and Chiasson in knew that they were trading on information obtained from insiders in solution of those sinsiders' find uciary that ites.

Accordingly, we reverse the convictions of we wan and the Chiasson on all counts and we and with instructions to dismiss the indictment as the rains to them with prejudice.

BACKGROUND

This case an isses from the Government's congoing investigation into suspected insider trading activity at fixed gettinds. Itom fanuary in 18,52012, the Government on sealed charges against in ewman, in

5 🖺

Chiasson, and several other investment professionals. On February 57,2012, a grand in ry Feturned an indictment. On August 28, 2012, a twelve-count superseding indictment \$25125 cr. 51215 (RJS) of the indictment indictment. On Each dictment wharged 51 New man, thiasson, and a co-defendant with conspiracy for mmit securities thaud, in violation of 18 th S.C. 1871. Each of Counts Two 51 through five charged New man and Each of Counts Six through five charged the man and Each of Counts Six through five charged the securities fraud, in violation of sections 10(b) 51 and 52 of the 1934 Act, SEC Rules 10b-5 and 105b-2, and 1815 S.C.

2. MA Co-defendant as Charged with Securities Fraud in Counts II

Attrial, the Government presented widence that algroup of the financial analysts exchanged information they to btained from the company insiders, both adjrectly and import of ten find irectly. Specifically, the Government alleged that these analysts received information from this siders at Delland NVIDIA disclosing those from panies' earnings in mbers before they were publicly teleased in Dell's May 2008 and August 2008 carnings announcements and in NVIDIA's May 2008 carnings announcement. These analysts then in passed the inside information to their portfolio managers, including in NVIDIA side information to their portfolio managers, including in NVIDIA stock, carning approximately 44 million and 368 million, in respectively, in profits for their respective funds.

New man and Chiasson were several steps from oved from the sorporate insiders and there was no evidence that either was as ware of the source of the soide information. With respect to the Dell's tipping schain, the sevidence established that Rob Ray of Dell's investor relations department in ped information regarding Dell's consolidated tearnings in umbers to sandy Goyal, an analyst at the Neuberger Berman. Goyal in Surur agave the sinformation of Diamond back analyst lesse Portora. The ortora in the layed the sinformation and the second consolidated that several steps are several steps and the second consolidated that several steps are several steps and the second consolidated that several steps are seve

6 🗓

information in his manager Newman is well is no other malysts including Level Global analyst Spyridon Sam Adondakis. Adondakis hen passed along the Dellin formation to Chiasson, making Newman and Chiasson three and four levels the moved from the inside the per, respectively.

With respect to the NVIDIA spring chain, the evidence established that Chris Choi NVIDIA's chance in it in pred inside information to the yung lim, to the executive at technology companies Broadcom Corp. and Altera Corp., whom Choi knew from thurch. The passed the information to defendant Danny Kuo, and analyst whittier Trust. Muo arculated the information to the group of analyst friends, including fortora and Adondakis, who in the group of analyst friends, including fortora and Adondakis, who in the respective formation to New man and Chiasson, anaking New man and Chiasson four tevels temoved from the inside to pers.

Although Ray and Choi have yet to be charged administratively, Edvilly, or Eriminally For insider ading for Early to other wrong doing, the Covernment charged that New man and to Chiasson were criminally hable for this ider trading because, as to sophisticated traders, they must have known that information was to disclosed by insiders in the each of a fiduciary outy, and not for any to legitimate corporate purpose.

At the close of evidence, New man and Chiasson moved for all judgment of acquittal pursuant to be deral Rule of Criminal Procedure 29. They argued that there was to evidence that the of corporate in siders provided in side in formation in exchange for all personal benefit which is required to establish the per tability in derives from the diability of the dipper. New man and Chiasson of argued that they could not be found quilty of this ider trading.

7 🖺

insiders had received appersonal benefit in exchange for the inside information, there was no evidence that they when about any side his benefit. Absent in change for the pellants argued, they were not in aware of, for participants in, the appears if audulent breaches of induciary that it is so bell or NVIDIA, and could not be convicted of insider that ing and or birks. In the laternative, appellants requested in that the court instruct the jury that it in ust find that New man and in Chiasson the we that the corporate insiders that disclosed confidential information for personal benefit in order to find them in ity.

The district court deserved decision on the Rule 19 motions. With despect to the appellants' dequested dury charge, while the sidestrict court acknowledged that their position was supportable certainly by the danguage of dirks," dr. 3595:10-12, which is the district court of the sides of th

Now, if you find that Mr. Ray and/or Mr. Choilead and uciary or other frelationship of firust and confidence with their free employers, when you in ust in ext consider whether whe for a sproven beyond a reasonable doubt in at they intentionally breached that they of trust and confidence by disclosing material[,] nonpublic information for their own in benefit.

Tr. 4030.

On the issue of the appellants' knowledge, the district court instructed the tary:

To meet is burden, the Coovernment in ust also prove beyond is all as onable doubt that the mefendant you are considering is knew that the in aterial, in onpublic information and indeen is disclosed by the insider in breach of a duty of trust and is confidence. The imerest receipt to film aterial, in onpublic information by the insider of the indivenment and is on that is information, is not sufficient; be in ust have known that it was in originally disclosed by the insider in violation of a duty of inconfidentiality.

Tr. 4033:14-22.

On December 17, 2012, the Jury Leturned and endict of guilty on all counts. The district court in bacquently denied the appellants' Rule 29 motions.

On May 2, 2013, the district fourt sentenced New man found aggregate form of Supervised frelease, imposed 3500 in and atory special assessment, and ordered New man for pay a supervised frelease, imposed 3500 in and atory special forfeit \$737,724. The May 13, 2013, the district court sentenced of Chiasson found aggregate form of 78 months imprisonment, for the followed by sone sear of supervised frelease, simposed 32,600 in and atory special assessment, and ordered Nim for pay and inilion of fine and forfeiture in an amount abt to exceed \$2 in illion. This is appeal followed.

13611--31411--31141--31141--31141--3144(53311--314411--15

² The district ourt subsequently set the forfeiture amount at \$1,382,217.

Nos. 🔟 -1837-cr; 🖽 -1917-cr 🖽

DISCUSSION

New man and Chiasson raise a humber of targuments on appeal. The cause we conclude that the pury instructions were concerned as insufficient ry idence to support the convictions, we address only the arguments relevant to these issues. We review fury instructions to hove with regard to whether the jury was inisted or inadequately informed about the applicable law. We would be united states Moran-Toala, 26 E3d 334, 344 Od Cir. 2013).

Liability for securities fraud salso requires proof that the securities with scienter, which is defined as sa mental state of embracing intent to deceive, manipulate or defraud." Hochfelder, 25 U.S. at 193 in 12. In order to establish a siminal violation of the securities laws, the Government must show that the defendant acted swillfully." 15 U.S.C. \$178ff(a). We have defined willfulness in this context as a realization on the defendant's part that he was doing as wrong full action der the securities laws." In ited states V.C. has ese, 28 U.S. and 32, 38 U.D. and Cir. 5005) Internal an otation on arks and stations of omitted); see also united states V.Dixon, 36 U.D. 388, 1395 Od Cir. 51976) Tholding that to establish willfulness, the Government in ust in "establish arealization on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant's part that he was doing as wrongful action on the defendant action of the d

II. The Requirements of Tippee Liability

The Government concedes that in pee liability requires proof of the ronal benefit to the insider. To ov't Br. 56. The owever, the little of the control of t

13 📳

Government and Chiasson kinew that the insiders at Delland NVIDIA received and personal benefit in order to the found guilty of insider trading. Instead, the Government contends, consistent with the idistrict occurt's instruction, that it in erely ineeded to oprove that the idistrict defendants indeed on in aterial, in on public information they knew insiders had disclosed in breach of a duty of confidentiality in the Gov't Br. 58.

In support of this position, the Government sites Dirks for the supposition that the supreme Court only required that the suppees know that the supper sisclosed information in seeach state ty." A supper sisclosed information in seeach state ty." A supper sisclosed information in seeach state the supper sisclosed supper sisclosed state in supper size the supper sup

Although this Court has been accused to being somewhat to Delphic in the scussion of that the quired to the monstrate to peed liability, to nited states white man, 504 E. Supp. 5d 363, 371 In.6 (S.D.N.Y. 12012), the supperment Court was quite the arm Dirks. Thirst, the suppee's liability derives only from the supper's breach of said the supper said the supper said the s

14 📳

unless he receives apersonal benefit in exchange for the disclosure. In third, even in the presence of a lipper's breach, a lippee is trable on ly if the troows of the own on the breach.

While we have not been presented with the question of the whether the stippee's knowledge of the tippee's personal benefit, the sanswer follows in naturally from Dirks. Dirks counsels is that the exchange of the confidential information for personal benefit is not keparate from an insider's fiduciary breach; the sand finder fiduciary breach that thiggers illubility for securities fraud finder fiduciary breach that thiggers insider frading filability, the insider's disclosure of foon fidential information, standing filability, the insider's disclosure of foon fidential information, standing filabe, as not so breach. In thus, swithout is establishing that the tippee knows of the personal benefit received by the insider in exchange for the disclosure, the Government is cannot meet in burden of showing that the tippee knew of the control of the control

The Covernment's Soverreliance Son Sour Sprior Edicta Smerely S highlights the doctrinal movelty of this mecent in sider trading prosecutions, which hich are increasingly targeted tat Fremote hippees many Levels Lemoved from Larporate insiders. By Lantrast, in ribrior cases generally in volved hippees who directly participated in the in tipper's breach and therefore ad knowledge of the tipper's disclosure For personal benefit) For hippees who were explicitly apprised of the hipper's gain by an intermediary hippee. See, Eg., 1 Jiau, \$\overline{3} 4 \overline{3} 3 d \overline{3} \overline{3} \overline{3} \overline{3} d \overline{3} \overline{3} \overline{3} d \overli tippers in sider information for their own private trading."); United in conviction of remote ripper where intermediary rippee paid he inside tipper and thad told themote tippee the the tidetails of the ti scheme"); Warde, 151 H.3d Lat 149 Lipper Land Lippee Lengaged Lin Li parallel mading loftine in side information and indiscussed in ot is haly in the inside information, but also the best way to brofit from it?); United States WM ylett, W7 12 3d 1663 12 d Cir. 1996) Tippee acquired 11 15 Nos. 🖾 -1837-cr; 🖾 -1917-cr 🖫

inside information directly from his insider friend). We note that the solution of the solutio

Jiau Ilustrates the importance of this distinction quite Bearly. In Thau, the panel was presented with the question of whether the illevidence in trial was in fficient to prove that the inpers personally illevidence in formation. It is that illevidence the insider in formation. It is that illevidence to the insider in formation in the insider in formation in the insider in formation. It is the insider in formation in the insider in formation in the insider in formation in the insider in formation.

(1) The insider-tippers which (2) The inty to protect to confidential information, which (2) They breached by the disclosing the information to their inpectation who (3) The word of the information to the information for the inpects of the information for the i

Jiau, 34 F3d 152-53 Citting Dirks, 163 II S. 1539-64; Obus, 1593 II II 3d 1539). The Government relies on this language roung use that II Jiau is merely the most recent in air ing off tases in which this Court in as round in at a hippee, in order to be criminally liable for insider in trading, ineed is know wonly what an insider-tipper indisclosed information in breach of a fauty of confidentiality. Tooy't IP . 138. III However, we reject the Government's position that four cursory in recitation of the Elements in Lau in ggests that wiminal Lability may in be imposed on the fendant based only on thow ledge of a breach of it a fauty of confidentiality. It is man, the elefendant knew about the in benefit because the provided in for that leason, we had no need to in reach the fine estion of whether the owledge of the lap per.

In light liks, we find how pport for the Covernment's contention that knowledge of a breach of the finty of confidentiality.

16 📳

without knowledge of the personal benefit is the fficient to impose in criminal hability. Although the Government might like the law to !! be different, nothing in the law requires also mmetry of information in the mation's securities markets. The Supreme Court explicitly [1] repudiated This premise not only in Dirks, but in alpredecessor case, in Chiarella United States. Un Chiarella, The Supreme Court rejected this Circuit's Conclusion that the federal securities aws have created a system providing equal access to information becessary for the reasoned and intelligent investment decisions in the cause in aterial non-public Information ves Certain Buyers or Sellers an Infair advantage over less informed buyers and sellers." 45 to S. at 32. The Supreme Court imphasized that It lhis reasoning suffers from [II] [a] defect. The because Inot every instance of Inancial Unfairness constitutes Fraudulent activity Under \$10(b)." 13d. 13see also United States 1. 10 hestman, 1947 11. 2d 1551, 1578 12d 150 ir. 1991) 17 Winter, 11, 11 concurring) [The policy rationale [for prohibiting insider trading] stops well short of prohibiting all mading on material hoppublic information. Efficient Capital markets Repend on the protection of the property lights in information. It owever, they also require that in persons who acquire and action information about companies be able id profit from the information they generate 11111). Thus, in [1] both Chiarella and Dirks, the Supreme Court affirmatively established That In sider Trading Tiability Is Based on Breaches of I fiduciary auty, not on informational asymmetries. This is a louitical in limitation on on sider ading hability that protects altorporation's of interests in confidentiality while promoting efficiency in the nation's securities markets.

As noted above, Dirks Elearly defines a breach of fiduciary of duty as a breach of the duty of Confidentiality in Exchange for a personal benefit. See Dirks, 463 D.S. Lat 562. Accordingly, we conclude that has hippee's knowledge of the linsider's breach onecessarily requires knowledge that the linsider of disclosed of the linsider of the linsider.

Our conclusion also comports with well-settled principles of a substantive criminal aw. When supreme court explained in staples ov. Onited states, \$110.8.600,605 (1994), and er the common aw, on mension, which requires that the defendant on on the facts that make in his conduct allegal, is allocessary element in every crime. Is a challer requirement is particularly appropriate in this identification against ader who is receives a superficient at this conduct was allegal and of therefore wrongful. Thit ed states whis conduct was allegal and of therefore wrongful. Thit ed states what this conduct was allegal and of therefore wrongful. This is also all that tutory requirement, because only willful violations are subject to criminal provision. The cause only willful to remple, 147 (13d 130, 137 (2d Cir. 2006) (Willful Tepeatedly has obeen defined in the criminal context as intentional, purposeful, and of voluntary, as distinguished from accidental or negligent").

In sin m, we hold that to su stain an insider trading conviction against an pee, the Government must prove each of the following against an pee, the Government must prove each of the following against subject of the following subject subject subject of the following subject subject

In view of this conclusion, we find, reviewing the charge as a whole, thited states in Mitchell, \$28 flad 77, \$200 d oir . 2003), that the district court's instruction thiled to accurately ad vise the jury of the slaw. The district court charged the jury that the Government had to sprove: (1) that the insiders had a stiduciary of the relationship of strust and confidence" with their corporations; (2) what they is "breached that they of thus that on fidence by disclosing material, in

Nos. 🗓 -1837-cr; 🗓 -1917-cr 🗓

19 🖺

nonpublic information"; (B) that they in ersonally benefited in some in way" From The Misclosure; [4] If that The Mefendant I have the I information he obtained had been disclosed in breach of alluty"; and (5) That the defendant used the Information to purchase (3) security. Inder these instructions, are as onable for might have in concluded that aldefendant could be criminally liable for insider trading merely blauch defendant kinew that an insider had divulged to information that was required to be kept confidential. But a breach to of the duty of confidentiality is not fraudulent on less the tipper acts for bersonal benefit, that Is to kay, there is the breach timless the time tipper is in affect selling the information to its recipient for cash, in reciprocal information, or other things of value for himself. Dirks, 463 U.S. & 664 Quotation Emitted). Thus, The district court was required to instruct the pry that the Government had to prove !! beyond alreasonable doubt that Newman and Chiasson knew that the tip pers received a personal benefit for their disclosure.

The Covernment argues that any possible instructional error was harmless because the jury could have found that New man and and Chiasson in ferred from the Error m stances that some benefit was provided to for anticipated by the insiders. Cov't Br. 50. 1 We disagree.

An instructional error is harmless only if the Government of demonstrates that it is belear beyond as easonable doubt that is rational in ry would have found the defendant guilty absent the orror.]" Meder I thited states, 527 IS. III -18 (1999); accord Moran-Toala, 726 EBd at 345; United states I Quattrone, 441 EBd 153, 180 Obd is Cir. 18006). The harmless curror inquiry equires is to liew whether in the evidence introduced by as Funcontested and supported by in overwhelming evidence in that it is dear beyond as easonable doubt that all ational jury would have found the defendant guilty is absent the error." Meder, 527 II.S. 1818. There both Chiasson and is New man contested their knowledge of any benefit received by the interest of the contested their knowledge of any benefit received by the interest of the contested their knowledge of the contested by the interest of the contested their knowledge of the contested the con

tippers and, in fact, alicited a idence in fficient for inportation trary in finding. Moreover, we conclude that the Government's avidence of it any personal benefit received by the insiders was insufficient to it establish hipper hability from which this son and we wan's inpurported in pee hability would derive.

III. In sufficiency of the Evidence

B0 01

As a general matter, a defendant allenging the sufficiency of the Evidence Bears albeavy Burden, as the Standard of Deview Is I exceedingly deferential. United States V Coplan, 303 F 3d 46, 62 Cd Cir. 2012). Specifically, We must view she widence in the fight of most Lavorable Louise Covernment, Crediting Every Inference Latin could have been drawn in the Covernment's Lavor, and deferring to the jury's assessment of witness credibility and its assessment of the weight of the Evidence." Id. Citing United States V. Chavez, \$49\mathbb{F}_3d \leftar{1} 119, 124 (Dd Cir. 2008)). (Although in fficiency review is the novo, we in will withold the find gments of conviction if sany rational rier of fact s could have found the essential elements of the crime beyond all reasonable Toubt." The Citing United States V. Vannotti, 541 F.3d 112, 11 120 2d Cir. 2008) Jemphasis Smitted); Jackson Wirginia, 443 0.S. 307, 1811 9 12 1 979)). This standard of Feview Draws Sho Distinction 19 between @irect and @ircumstantial widence. The Bovernment s entitled hoprove his hase holely hrough hrough hircumstantial hidence, provided, of course, that the Government will demonstrates each of element of the charged offense beyond alleasonable doubt. United States 150 renzo, 534 153, 159 12d Cir. 2008).

However, The Evidence is nonexistent of the ager," Onited in States of Chadagna, IS3 E3d II2, IS30 Och Cir. IS99), Such that Is gives in equal of the arry of the nocence, Then is the asonable in ry in ust increasarily in entertain a lineasonable doubt," Cassese, ISS E3d IS9. IS cause few in events in the life of the individual are more important than a literiminal in the content of the content

21 🖺

conviction, we continue to consider the beyond a reasonable doubt" equirement with it most seriousness. Cassese, 28 F 3d F 102. There, we find that the covernment's evidence without that the covernment's evidence with the covernment of the covern

The currential exidence in this case was sumply too thin to !! warrant The inference That The Corporate Insiders Treceived Lany personal Benefit in Exchange for their ups. This in the Dell ups, the Government stablished that Goval and Ray were not close" friends, but had known each other for years, having both attended business school and worked at Dell logether. In ther, Ray, who wanted bobecome a wall Street analyst like Goyal, sought career advice and assistance from Goyal. The Evidence further showed II that Goyal advised Ray on all ange of Topics, from discussing the 1 qualifying & xamination in order to become a financial analyst to in editing Ray's resumé and sending rillo all street recruiter, and b that some of this assistance began before Ray began to provide tips about Dell's Farnings. The Evidence also Established That Tim and III Choi were family friends" hat had het through church and fi occasionally socialized together. The Government angues that these facts were sufficient to prove that the uppers derived some benefit from the tip. The disagree. The his was as the benefit," practically the anything would a alify.

We have observed that IIIp Jersonal Benefit is Broadly it fined in to include in of Ionly specuniary Igain, But I also, internal ia, Iany is reputational Benefit that Will translate into fit ture Earnings and the benefit be would obtain from Imply making in it is formation in a local and ing relative of Iniend." I in Ind. I is information in a local and ing relative of Iniend. I internal intations, Internal intern

24 Nos. 13-1837-cr; 13-1917-cr

Even assuming that the Edant avidence described above was sufficient to permit the inference of apersonal benefit, which we such conclude the was inot, the Government in resented absolutely inot testimony of any other avidence that New man and this asson knew that they were thad ing on information obtained from insiders, for that those in siders freceived any indentition beach ange for such disclosures, for even what in ew man and othis asson to onsciously avoided dearning to fothese tracts. The side is cussed above, when Government is required to prove beyond a reasonable doubt that the New man and this son the win at the insiders received in personal benefit in Exchange for disclosing confidential information.

It Is largely Encontroverted that Chiasson and Newman, and E even Their analysts, Who lestified as Cooperating Witnesses For The III Government, knew next to nothing about the insiders and nothing in about what, fill any, personal benefit had been provided to them. Adondakis said that he did not know what the relationship between 5 the insider and the first-level tippee was, nor was he aware of any in personal benefits exchanged for the information, in or adid the in communicate Many Msuch Minformation To MChiasson. MA dondakis M testified that he merely fold Chiasson that Goyal was falking fold someone within Dell," And that a briend of a briend of Tortora's the would be getting WVIDIA Information. 1708, 1878. Madondakis 1 further restified that he did not specifically rell Chiasson that the source of the NVIDIA information worked at NVIDIA. Is milarly, Tortora destified that, by hile the by as daw are Goyal deceived to information from someone at Dell ho had access to verall" financial in umbers, the was in lot was are tof the in sider's in ame, for the position, or other circumstances of thow Goval bottained of the information. Mortora further testified that he did not know whether Choileceived apersonal benefit for a sclosing in side formation regarding NVIDIA.

25 📳

The Government how in vites is to conclude that the firy in could have found that the appellants knew the insiders disclosed the information for some personal cason father than for how cason all." Gov't Br. 63. But the Supreme Court of firm atively rejected the inpremise of hat a hipper who is closes donfidential information necessarily does so to receive a personal benefit. Nee Dirks, 463 U.S. in at 1661-62 All disclosures of confidential corporate information are into consistent with the fluty insiders to we for shareholders"). In Moreover, it is inconceivable that a jury fould conclude, beyond a line as onable flow by, that New man and Chiasson we ere aware of the intimately involved in the insider fluading scheme as part of the intimately involved in the insider fluading scheme as part of the intimately involved in the insider fluading scheme as part of the intimately involved in the insider fluading scheme as part of the intimately involved in the insider fluading scheme as part of the intimately involved in the insider fluading scheme as part of the intimately involved.

timing, and diequency of the appdates provided to New man and of Chiasson about Delland NVIDIA were so doverwhelmingly suspicious" that they warranted various material inferences that could apport a pulity verdict. How't Br. 165. New man and chiasson received four appdates on Dell's carnings and where weeks leading approach a way of the could apply to as a way of the could apply to a way of the covernment argues that a given the detailed nature and accuracy of these industry oided thowing, that the information originated with corporate insiders, and that the information originated with corporate insiders, and that the information originated with corporate insiders, and that the considers disclosed the information in exchange for appersonal benefit. We disagree.

Even Wiewed in the light most tavorable to the Government, the devidence presented the trial and ermined the tinference of the knowledge in deveral ways. The devidence established that an alysts the dege in the deciment of the trice of the

Nos. 13-1837-cr; 13-1917-cr

margin, boperating margin, band bearnings ber bare bare barrough legitimate In ancial In odeling Ising In blicly Is ailable In formation II and leducated lassumptions about industry and leampany frends. The example, on cross-examination, cooperating witness Goyal testified that under his inancial model on Dell, when he han the model in the January 2008 without any an side information, he calculated May !! 2008 au arter results of \$1 6.071 billion revenue, \$18.5% gross billion argin, \$1.5% from the sults of and \$0.38 arnings per share. 15.66. These estimates came very close no Dell's neported earnings of \$16.077 billion nevenue; 18.4% gross margin, and 50.38 Earnings per thare. Appellants also dicited 19 testimony from the cooperating witnesses and investor relations associates that that analysts to outinely the solicited that the formation of the solicited that the solicit companies in order to theck assumptions in their models in advance of carnings announcements. Goval testified that the frequently spoke [8] to internal relations departments for in his model by them and ask in whether his assumptions were stookigh of too low "of in the shall so park," which suggests analysts routinely updated umbers h advance of the Earnings announcements. Tr. 1511. Ray's supervisor confirmed that the vestor relations departments routinely assisted analysts with developing their models

Moreover, The Evidence Established That NVIDIA and Dell's investor Felations personnel Foutinely Peaked" Earnings Edata In advance of the arterly Earnings. The pellants introduced Examples in which Dellinsiders, including the Bead of Envestor Relations, Lynn Tyson, selectively Edisclosed Confidential quarterly Infinancial information Educations and the inside information Esclosed by ERAY and Choi Establish Felationships with Inancial Firms who in might be in Establish Felationships with Inancial Firms who introduced In Temperature In the Inside Information Establish Felationships with Inancial Firms who introduced In Temperature In the Inside Information In the Inside Information In the Inside Information Instrumental Instru

was fairly confident on coperating argin argin and coss argin." Tr. 568:18-581:23.

No leasonable Jury Lould have Jound beyond a leasonable of doubt hat Newman and Chiasson knew, of deliberately avoided knowing, that he information originated with corporate insiders. It is general, information about a firm's finances could certainly be sufficiently detailed and proprietary to permit the inference that the tippee line we that the information came from an inside source. But this case, where the financial information is of a fact the tippees are several bevels from order of the source, when the financial information is originated with a corporate insider known, that the linformation originated with a corporate insider known, that the linformation originated with a corporate insider known, that the linformation originated with a corporate insider known, and the linformation originated with a corporate insider known, and a constant of the linformation originated with a corporate insider that warranted.

Moreover, even if detail and specificity sould support and inference as not he shature of the source, in sannot, without more, in permit an inference as no that source's improper motive for indisclosure. That is specially frue here, where the syidence showed in that sorporate insiders at Delland WVIDIA regularly in gaged with analysts and stoutinely selectively idisclosed the same by periof information. Thus, in light of the sestimony shout the same by periof information. Thus, in light of the sestimony shout the sacuracy of the sanalysts' sestimates and the selective sitisclosures by the some panies them selves, no fational fary would find that the sape where is so overwhelmingly as spicious that we man and chiasson in the short of some of the sanalysts oided knowing that the information came in from sorporate insiders of that those insiders received any personal is benefit in exchange for the disclosure.

In Short, the Bare facts in Support of the Government's theory of the Base are as Bonsistent with an inference of the nocence as one of the guilt. Where the Evidence viewed in the fight most havorable to the prosecution gives Equal on hearly Equal circumstantial support to all the support to all t
